

NIKHIL SONI

Frontend Developer | React.js | JavaScript | Next.js

📞 9462514026 ✉️ nikhilsoni1030@gmail.com 💻 github.com/nikhil-soni27 💼 linkedin.com/in/nikhil-soni27

PROFESSIONAL SUMMARY

Frontend Developer with 3.5 years of experience building scalable, responsive web applications using React.js, TypeScript, and Next.js. Experienced in reusable component architecture, rendering performance optimization, REST API integration, and role-based user experiences across fintech, government, and enterprise domains. Delivered multiple production-grade applications including an e-commerce marketplace, event management platform, and wedding planner app — all live in production.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Styling: Tailwind CSS, CSS Modules, Responsive Design, Flexbox, Grid

React Concepts: Hooks, Custom Hooks, Memoization, Lazy Loading, Code Splitting, Component Lifecycle

State Management: Redux Toolkit, Zustand, Context API, useReducer

API & Auth: REST APIs, Axios, JWT Authentication, Real-time integrations

Tools: Git, GitHub, Vite, npm, Figma (UI reference), VS Code

Architecture: Reusable Components, RBAC UI, Dynamic Forms, Performance Optimization

PROFESSIONAL EXPERIENCE

Radiantx Labs | React Developer

Udaipur · May 2024 – May 2026

- Reduced scheduling conflicts by 15% by architecting a drag-and-drop calendar system in React using functional components, custom hooks, and controlled state flows for real-time job and event management.
- Improved user efficiency by 20% through component-level memoization, lazy loading, and UI logic refactoring — reducing unnecessary re-renders and improving perceived responsiveness.
- Built a reusable component library for scheduling views, applying code splitting to reduce bundle size and accelerate feature delivery across the product.

Tech: React.js, TypeScript, Redux, Tailwind CSS, REST APIs, Custom Hooks

Shiv Technolabs | React Developer

Ahmedabad · Jan 2023 – Jul 2023

- Reduced manual processing errors by 15% by building a government BPM web app with dynamic forms, real-time field validation, and API-driven data submission across four user roles.
- Improved form submission efficiency by 20% through optimized React rendering, simplified user workflows, and conditional role-based UI rendering (Admin, Tenant, User, Citizen).
- Implemented RBAC (Role-Based Access Control) at the UI layer — ensuring each role accessed only permitted views and actions, reducing support requests and user errors.

Tech: React.js, JavaScript, REST APIs, Dynamic Forms, RBAC

Career Break | Tech Industry Layoff

Jul 2023 – May 2024

- Upskilled in TypeScript, Tailwind CSS, Redux Toolkit, and Zustand. Built multiple personal projects (wedding planner, e-commerce app) — all deployed live on Vercel.

Celebal Technologies | React Developer

Jaipur · Aug 2021 – Oct 2022

- Reduced human agent dependency by 25–30% by developing a multilingual banking chatbot UI in React supporting payments, transfers, recharges, and account queries across 4 languages.
- Improved customer response time by 20% through optimized conversational UI flows, voice input support, and real-time API integration with intelligent live-agent escalation.
- Architected multi-turn conversation state using React Context and reducer pattern — handling language switching, session continuity, and dialogue history without external state libraries.

Tech: *React.js, Context API, Reducer Pattern, REST APIs, Voice Input*

PROJECTS

Artisan Marketplace — E-commerce App · React.js · TypeScript · Redux Toolkit · Tailwind CSS · REST APIs

Live: nikhil-ecomm.vercel.app

- Built a full-featured e-commerce platform with product listings, filters, cart management, and checkout flow using React and Redux Toolkit for global state management.
- Implemented dynamic product filtering, search, and pagination with Axios-powered REST API integration and optimized re-renders using useMemo and useCallback.

Wedding Planner App · React.js · Tailwind CSS · REST APIs · Axios

Live: wedding-plannerliard.vercel.app

- Developed a wedding planning web app with vendor discovery, event scheduling, and checklist management — featuring a clean, responsive UI built with Tailwind CSS.
- Integrated REST APIs for dynamic vendor data and implemented reusable form components with real-time validation for booking and contact flows.

The Event Codes — Event Management Platform · React.js · Tailwind CSS · REST APIs

Live: theeventcodes.com

- Delivered a production client project — a full event management platform with event listings, registration flows, and responsive layouts across all device sizes.
- Built and deployed the complete frontend from scratch, collaborating directly with the client on UI requirements and iterating based on feedback.

Personal Portfolio · React.js · Tailwind CSS

Live: nikhil-soni.vercel.app

- Designed and built a personal portfolio showcasing projects, skills, and experience with smooth animations, responsive layout, and optimized performance.

EDUCATION

Bachelor of Computer Applications (BCA)

2018 – 2021

Mohanlal Sukhadia University, Udaipur
